MEMORANDUM FOR THE RECORD

SUBJECT: Briefing the House Foreign Affairs (HFA) Staff
Directors

Brady indicated that he understood our position, and said that he and the committee would be happy to get our input on this. He reiterated that his committee still feels that

involvement. But, he did note that there is an ongoing effort to identify means of handling the problem, and I took that opportunity to repeat our very strong view that we not regress to a position of having to deal with a proliferating number of committees; the ones we deal with now are quite enough. He seemed to understand--maybe even accept--our position, but did not elaborate on his remarks. He will obviously be expecting to hear from us within the next two weeks.
